TI300P **1.44kg**

150 X 300 X 17

Length x Height x Thickness

22/m²

10mm grout joint

ADVANTAGES OF FLUTED TILES

The Clay Flute Tile combines natural beauty with durability, making it a versatile choice for both indoor and outdoor use. Crafted from sustainably sourced clay, the tile's peaked design adds a textured, 3 dimensional look. Its thermal properties help regulate temperature, keeping spaces cooler in summer and warmer in winter.

Resistant to UV, water, and wear, these tiles are easy to maintain and suitable for cladding areas like kitchens, bathrooms, and patios. Available in earthy tones, they bring a timeless, organic aesthetic to any environment.
