

Screen Block Square Single Pane

SPECIFICATIONS

PRODUCT ID SBS150SP | SBS190SP

DESCRIPTION Screen Block Square Single Pane

COLOURS Chai Espresso Latte

Size variation +/- 1.5%

SBS150SP	2.4 kg
150 X 150 X 100	
Length x Height x Width	
39/m²	
10mm mortar joint	
SBS190SP	3.5 kg
190 X 190 X 100	
Length x Height x Width	
25/m²	
10mm mortar joint	

Screen Blocks

Screen blocks are experiencing a significant resurgence as an architectural element, appreciated for their ornamental appearance while providing practical benefits such as ventilation, privacy, and sun protection. These versatile blocks can be used in various applications, including yard enclosures, fencing, decorative screens, balustrades, wall adornments, and creating outdoor rooms.

Produced in countries such as Spain, India, Mexico, Florida, and South Africa, Screen blocks often evoke memories of 1960s beach bungalows. However, their use has evolved considerably in recent years.

Screen blocks now serve as eye-catching design features for maximalists who seek bold, striking elements, while their availability in neutral colours and clean lines also caters to minimalist aesthetics.
