

SPECIFICATIONS

PRODUCT ID TI222RUBIK

DESCRIPTION Intricate Tile - Rubik

FINISH Smooth

COLOURS Chai Espresso Latte

Size variation +/- 1.5%

TI222RUBIK

0.56kg

222 X 65 X 20

Length x Width x Thickness

60/m²

10mm grout joint along length only

No vertical mortar joint required

ADVANTAGES OF RUBIK TILES

The Clay Rubik Tile combines natural beauty with durability, making it a versatile choice for both indoor and outdoor use. Crafted from sustainably sourced clay, the tile's cube design adds a textured, 3 dimensional look. Its thermal properties help regulate temperature, keeping spaces cooler in summer and warmer in winter.

Resistant to UV, water, and wear, these tiles are easy to maintain and suitable for cladding and flooring installations in areas such as kitchens, bathrooms, and patios. Available in earthy tones, they bring a timeless, organic aesthetic to any environment.
