

SPECIFICATIONS

PRODUCT ID SBI330MIRAGE 2 | 3 | 4

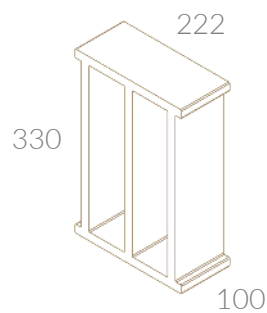

COVERAGE 13.3/m² (10mm mortar joint)
No lateral mortar joint required

DESCRIPTION Mirage Double | Triple | Quad

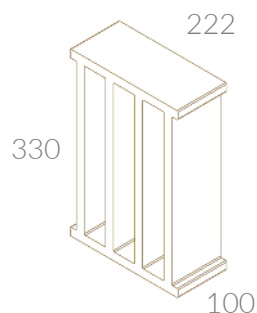

MASS 4.8 | 5.8 | 7.2 Kg

SIZE 222 mm (length)
100 mm (width)
330 mm (height)

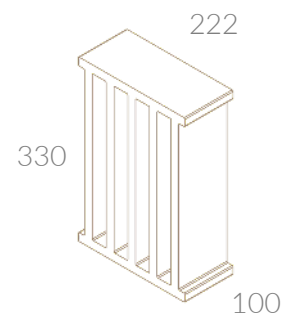

COLOURS Chai Espresso Latte

Double

Triple

Quad

Size variation +/- 1.5%

Screen Blocks

Screen blocks are experiencing a significant resurgence as an architectural element, appreciated for their ornamental appearance while providing practical benefits such as ventilation, privacy, and sun protection. These versatile blocks can be used in various applications, including yard enclosures, fencing, decorative screens, balustrades, wall adornments, and creating outdoor rooms.

Produced in countries such as Spain, India, Mexico, Florida, and South Africa, Screen blocks often evoke memories of 1960s beach bungalows. However, their use has evolved considerably in recent years.

Screen blocks now serve as eye-catching design features for maximalists who seek bold, striking elements, while their availability in neutral colours and clean lines also caters to minimalist aesthetics.
